Subject: California Bay-Delta FY 2012 Initiatives

All,

At our last California Bay-Delta interagency check-in meeting on Tuesday, February 21, we discussed whether the federal agencies should publish a federal update on the ongoing restoration efforts for the Bay-Delta. The last federal update was released to the public in December 2010. We agreed at the February 21 meeting that if the federal family is to release such a document, it would make the most sense to aim for a summer release after there is more clarity as to the BDCP.

You will recall that in the past, CEQ has asked the federal agencies who have equities in the Bay-Delta to update an internal tracking matrix, so that this interagency group can get broad overview of the ongoing work by the federal family as it relates to the 2009 Interim Federal Action Plan. It has been some time since our existing tracking tables have been updated and CEQ would like to ask that the Corps, NOAA, Reclamation, Fish & Wildlife Service, USGS, USDA, and EPA update the document for FY 2012. You will see that the first attached document tracked progress for FY 2011. Each agency should complete the attached FY 2012 template with completed projects since FY 2009, projects slated for completion in FY 2012, and projects which will be worked on throughout FY 2012 (all under the auspices of the 2009 Interim Federal Action Plan).

Please submit all entries to CEQ by COB, Tuesday, March 20. Feel free to e-mail or call with any questions.

Thank you.

-Jason Brodsky
